2. Courses

The courses offered by the École nationale supérieure d'art et de design de Limoges are divided into first-level courses, lasting three years, and second-level courses, lasting two years.

In general, we prefer to integrate students on Erasmus mobility programmes into the second year so that they can benefit from all the workshops. The third year is a final year of study, with the 4th and 5th years working on a project that is already well developed. However, depending on the student's level and the progress of their project, they will be able to take part in workshops and courses in other years.
