

Métal Pi(è)nçe Rouge, two schools — a connection — dialogues — an exhibition
It all began with a strong bond and a shared commitment to teaching at an art and design school, brought together by a passion for JEWELLERY.

A link was forged with the creation of POPatelier BIJOU at EnsadLimoges in 2005, driven by a director who was keen to establish a workshop modelled on that of the HEAR in Strasbourg.

A dialogue through the exchange of skills, bridging theory and craftsmanship, a back-and-forth between Alsace and Limousin bringing together students and teachers.

Parcours Bijoux 2026 is an opportunity to come together for an exhibition at **La Galerie des Ateliers** in Paris, conceived as a given moment showcasing jewellery created by current students and recent graduates. *Métal Pi(è)nçe Rouge* offers a fresh perspective that explores material, technique and object, through jewellery sets that interact with the body and, in a non-verbal way, with society.

Galerie des Ateliers de Paris

30 Rue Faubourg Saint-Antoine, Paris 12th arrondissement

Opening:

Friday 9 October, 6.00pm–9.00pm
